

VascuLab GS

Non-invasive, diagnostic testing system for the physiologic assessment of PAD

Increase Patient Throughput

- Intuitive, efficient, flexible protocols
- Quickly modify testing protocols
- Touchscreen, keyboard, & wireless remote
- WiFi, DICOM connectivity

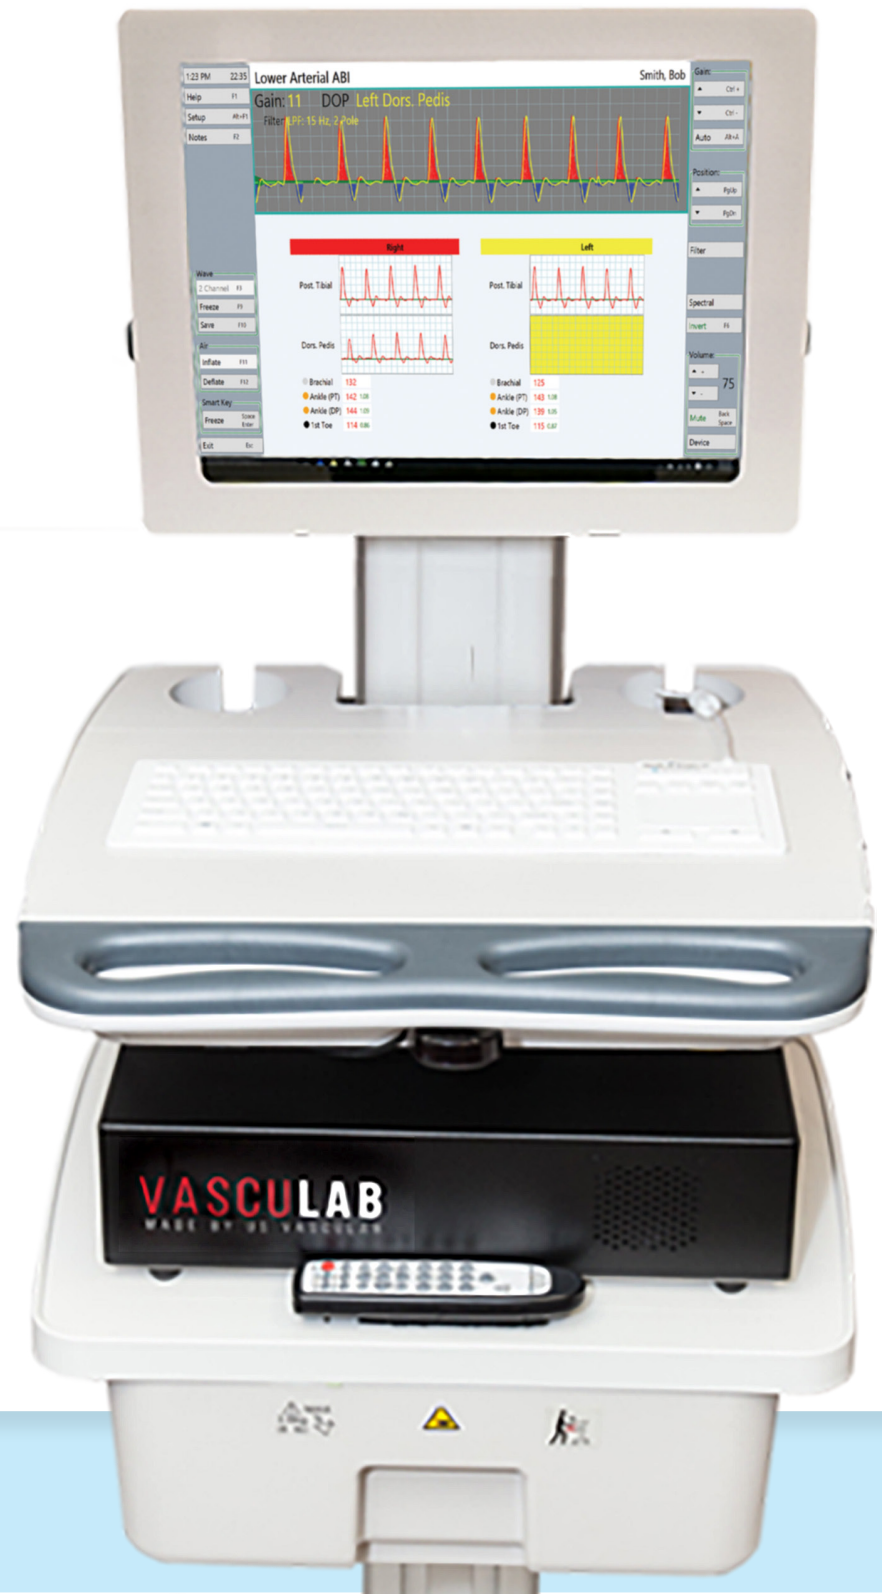

Clean & Stable Waveforms

- Ultra-stable, ultra-sensitive PPG sensors
- Auto-centered waveforms
- Post-processing capabilities

Disinfect Safely & Quickly

- Medical grade, antimicrobial PC
- Non-porous EZ-Clean cuffs
- Washable keyboard with cleaning reminders

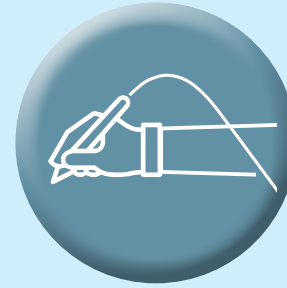

VASCU LAB

VascuLab Features

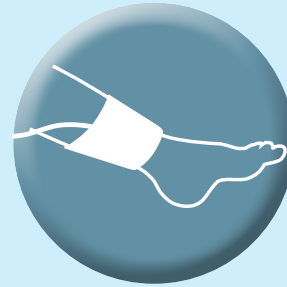

Convenient, high-resolution, pivoting touchscreen monitor on an ergonomic cart

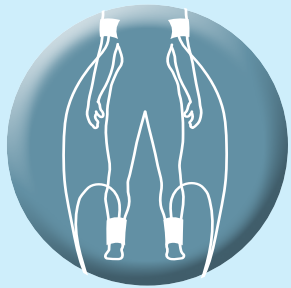

4 & 8 MHz high sensitivity Doppler composite probes with smooth edges

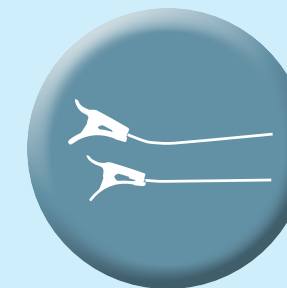

Antimicrobial, washable keyboard and mouse with programmable cleaning reminder and three backlighting settings

Quick drying, non-porous EZ-Clean Cuffs

12 channel quick and quiet inflate separated into ABI/TBI and full segmental hose sets

Ultra-stable, ultra-sensitive PPG technology with variable tension digit clips

Features

Lower Arterial Assessments

- Ankle Brachial Index (ABI)
- Lower Arterial Complete
- Pulses
- Doppler
- Pulse Volume Recording (PVR)
- Segmental Pressures
- Exercise
- Reactive Hyperemia
- Digits
- Raynauds
- Penile
- Popliteal Entrapment

Upper Arterial Assessments

- Wrist Brachial Index (WBI)
- Upper Arterial Complete
- Pulses
- Doppler
- Pulse Volume Recording (PVR)
- Segmental Pressures
- Exercise
- Reactive Hyperemia
- Digits
- Raynauds
- Palmar Arch
- Ischemic Steal Syndrome
- Thoracic Outlet Syndrome

Warranty / Service

Standard 2-year Warranty is included on the VascuLab GS. 2-year warranty covers the computer, VascuLab control system, and cart. Parts applied to patient (cuffs, hoses, probes, connectors, clips) are covered for 6 months.

Extended Warranty may be purchased at any time, per annum, up to 7 years.

Software Upgrades are included free for 7 years.

Maintenance: VascuLab devices are modular and do not require on-site service. Warranties include loaned devices and computers during the repair process.

Manufactured by US Vascular in the USA
